

Average business energy storage price per 1GW in Bulgaria

How much does a battery energy storage system cost in Bulgaria?

Specifically, according to data presented by Soltani at the RE-Source Southeast Conference, Bulgaria's electricity market offers an opportunity for EUR110 per MWh profit with a battery energy storage system with two hours of discharge capacity using energy arbitrage. Rystad Energy's analysis has set the battery system costs at a flat EUR60 per MWh.

Is there a transition to energy storage in Bulgaria?

"In fact, we are already seeing the transition to energy storage in Bulgaria, mainly through the development of battery storage facilities behind-the-meter," Alexander Rangelov, CEO of the International Power Supply (IPS) Group, an energy storage manufacturer headquartered in Sofia, told pv magazine.

How much money does the Bulgarian Energy Ministry provide for energy storage?

The Bulgarian Energy Ministry opened a tender procedure for supply of energy storage on August 21, 2024. The procedure aims to provide funding for construction and implementation of a 3,000 MWh stand-alone battery storage facility. The total amount of the grant that can be provided under the procedure is EUR590 million (\$536 million).

How much does electricity cost in Bulgaria?

In the beginning of 2022, the average price of electricity in Bulgaria amounts to EUR 131.95 per megawatt, whereas in July last year it was to the tune of EUR 95 per megawatt. However, between July 2021 and January 2022, the price of electricity has fluctuated and at times, it exceeded EUR 300 per megawatt.

Why are electricity prices so high in Bulgaria?

Rising costs for fossil fuels and CO₂ emissions are already pushing electricity prices in Bulgaria to record high levels. In response, businesses are turning to renewable energy to lower their electricity bills.

Which country has the highest revenue potential for battery storage in Europe?

Sepehr Soltani, lead energy storage analyst at Norwegian consultancy Rystad Energy told the RE-Source Southeast Conference that took place in Sofia, Bulgaria, in May that Bulgaria offers the highest revenue potential for battery storage in Europe.

Investments in battery storage offer the opportunity for profitable energy arbitrage and the best potential profits in Europe are in Greece and Bulgaria, according to Rystad Energy. Battery operators can store energy ...

? Electricity prices ?? Bulgaria BG ? The latest energy price in Bulgaria is EUR 84.93 MWh, or EUR 0.08 kWh This is -9% less than yesterday. In Bulgaria 's local currency this ...

Average business energy storage price per 1GW in Bulgaria

Bulgaria's energy sector is at a critical juncture, with two main objectives shaping its direction: decarbonization and reducing reliance on Russian energy. Over the past ...

The Bulgarian Ministry of Energy is readying to launch a tender on September 2 and provide Capex support for the construction and commissioning of 3 GWh of standalone energy storage facilities ...
