

Average domestic energy storage price per 5kWh in Croatia

How much does electricity cost in Croatia?

Croatia, September 2023: The price of electricity for households is EUR 0.150 per kWh or USD 0.160 per kWh. The electricity price for businesses is EUR 0.148 kWh or USD 0.158 per kWh. This includes all components of the electricity bill such as the cost of power, distribution and taxes.

What makes Croatia's electricity market unique?

In conclusion, Croatia's electricity market is characterized by a balanced mix of hydroelectric power, fossil fuels, and growing renewable sources. Being part of the EU electricity market and its connections with neighboring countries are vital for its energy strategy.

How much energy does Croatia consume a year?

In 2018, final energy consumption in Croatia amounted around 6.8 Mtoe, 12.2% above its 2000 level. Residential sector was the largest consuming sector in 2018; consumption in this sector remained stable in the period from 2000 to 2018. Final energy consumption in the transport sector increased by 2.1% per year in the period from 2000 to 2018.

Why is Croatia focusing on hydroelectric power?

This focus on hydroelectric power reflects Croatia's commitment to sustainable energy practices and environmental conservation. Despite the dominance of hydroelectricity, fossil fuels, particularly coal and natural gas, also contribute substantially to Croatia's energy mix.
