

Average enterprise ESS system price per 1GW in Romania

How much does Romania spend on energy storage?

Specifically, Romania allocated EUR 80 million (USD 87m) under its National Recovery and Resilience Plan for an energy storage programme expected to award 1.8 GW of capacity. Submitted projects as part of the scheme are being assessed and contracts are due to be signed in September.

What is Enery doing in Romania?

This week, Vienna-based Enery has commissioned a major solar and storage site in northwestern Romania. The project consists of a 51.4 MW PV plant and a battery energy storage facility of 22 MWh.

Is the Bess market heating up in Romania?

The BESS market in Romania is heating up, say local analysts and insiders. Irene Mihai, policy officer at the Romanian Photovoltaic Industry Association (RPIA) recently told pv magazine that a realistic target for the utility-scale BESS segment in Romania "would be around 2 GWh (around 1 GW of installed capacity)" for 2030.

Which Romanian companies are adding Bess to their renewable assets?

Other Romania-based companies, such as Parapet and Waldevar Energy, have told pv magazine that adding BESS to their renewable assets is a top priority. The May edition of pv magazine features an in-depth look at Romania's solar and energy storage markets.

What is Romania's most important energy project?

Earlier this month, Burduja reported progress on what he terms as "the most important project for the Romanian energy system" - the 1 GW Tarnita-Lapustesti pumped storage hydropower plant. Romania resumed the development of the project last year, upping the planned capacity from 500 MW to 1 GW.

Is Romania a Bess market?

"As other European BESS markets become increasingly saturated, Romania stands out," said Evangelos Gazis, Aurora's head of Southeastern Europe, adding that the investment case for storage is strengthened by wind and solar's rapid expansion driving high volatility in wholesale and balancing markets.
