

Average household energy storage price per 1MW in Belgium

How much does electricity cost in Belgium?

In the last twelve months the price of electricity in Belgium has fallen by 33.05%. The average price of electricity since 2007 reached its maximum, EUR0.4489kWh, in December of 2022 and its minimum price, EUR0.1683 kWh, in December of 2007. Belgium is among the European countries with the most expensive electricity.

What is the main source of electricity in Belgium?

The main source of electricity in Belgium is nuclear power, which contributes significantly to the nation's energy mix. This is complemented by renewable energy sources such as wind and solar power, as well as natural gas. The blend of these sources ensures a steady and reliable supply of electricity across Belgium.

How much does electricity cost in the EU?

The EU average price in the second half of 2024 -- a weighted average using the most recent (2023) consumption data for electricity by household consumers -- was EUR0.2872 per kWh. Figure 2 depicts the development of electricity prices for household consumers in the EU since the first half of 2008.

Why are energy imports booming in Belgium?

Imports from France, the Netherlands, the UK, and Germany have surged recently. This cross-border trade is integral to meeting Belgium's electricity demand and managing price volatility. Expect import dependence to continue as the renewable buildout ramps up and nuclear availability changes. 2. Renewables on the Rise

How is the energy sector shaped in Belgium?

The energy sector in Belgium is shaped by the policies of its national and regional governments, as well as the European Union. The monitoring of the electricity and natural gas market happens on three regional levels, the Brussels-capital region, the Flemish region, and the Walloon region.

Which European country has the most expensive electricity?

Belgium is among the European countries with the most expensive electricity. The difference between the price of electricity with and without taxes is EUR 0.0949 tax for each kilowatt hour, thus, 28.29% of what households pay for electricity in Belgium.
