

# Average household energy storage price per 30kW in Ireland

Are home battery storage systems a good idea in Ireland?

In Ireland, demand for home battery storage systems -- even without solar panels -- is growing rapidly as homeowners look to reduce costs and gain energy independence.

Why are electricity costs so high in Ireland?

Our network costs are similar to those of other Member States. The relatively high price of our electricity in Ireland is attributed to our dependence on imported fossil fuels, particularly gas, and the costs of generation and supply, although transmission and distribution costs have increased year on year with greater investment.

How much does electricity cost in Ireland?

Buy: Buying it on Electric Ireland's time-of-use-tariff would cost approx 30.5c/kWh for day rate, 15c/kWh during night rate and 9c/kWh for night boost rate. \*Store: You could save approx 10.5c per kWh just by using energy from your battery during day rate hours vs selling it to the grid.

What is Ireland doing about energy cost competitiveness?

Ireland has committed to developing metrics of energy cost competitiveness as outlined in the Government's White Paper on Ireland's Transition to a Low Carbon Energy Future 2015-2030. We have developed average electricity and natural gas prices for business and households. These are based on the EU Electricity and Gas Price Regulation statistics.

How much electricity does a 3 bedroom Irish home use?

A typical 3-bedroom Irish home uses roughly 4,200 kWh of electricity every single year. If all of the electricity used could be charged on the off-peak tariff you could see an annual saving of EUR635.88. Over ten years, you'd have paid off your battery storage system and also potentially saved EUR1,358.80.

How much electricity does the average Irish household use a year?

The Commission for Regulation of Utilities (CRU) states that the average Irish household uses 4,200 kWh of electricity and 11,000 kWh of gas per year. However, other factors may mean your usage is quite different, such as: Find the cheapest gas and electricity plans on [Switcher.ie](http://Switcher.ie) by entering the precise consumption data from your bill or app.

Electricity prices in Ireland have skyrocketed in recent years, with the cost of electricity now almost 3 times more than in 2012. Around 34% of our electricity comes from natural gas - which can be vulnerable to global market ...
