

Average rooftop solar battery price per 5kWh in Ghana

How much is the government investing in solar panels in Ghana?

The Ghanaian government, through Volta River Authority (VRA), has so far invested in a solar plant with 2.5 megawatts of power. Additionally, the government has committed GHC200,000.00 for a rooftop solar panel project, aiming to install panels on 200,000 homes.

Is it worth installing solar power in Ghana?

Ghana has an average effective sunshine of 5.5 hours daily. As a considerable investment, it's worth evaluating a solar power system for your home before having it installed. Doing your research and seeking professional advice can help you to make an informed decision. Here are a couple of other things to consider before making the change:

What are the best solar panels in Ghana?

Polycrystalline (or multi-crystalline) silicon cell based solar panels are now the most popular choice in Ghana's residential installs. There are also Amorphous (or thin-film) silicon cells, which use the least amount of silicon and are not very efficient. For an equivalent wattage, a crystalline panel will be smaller than an amorphous panel.

A 5 kW solar panel system can generate about 20-30 kWh of electricity daily. For this configuration, you'll need a backup battery with a capacity of 14 kWh. Installing a 5 kW solar system with battery backup will cost between ...
