

## Average solar with battery price per 5kW in Luxembourg

How can Luxembourg save money on solar panels?

Luxembourg homeowners can reduce their electricity bills and sell surplus production thanks to the self-consumption model. The government is proposing subsidies covering up to 80% of installation costs with an estimated return on investment of between 5 and 7 years. How steep should the roof be for solar panels?

How much does a 5kw Solar System cost?

The actual pricing varies by region due to various regional incentives, with the average price of a 5kW system ranging from \$8,880 to \$11,840. Moreover, the total amount for a 5kW solar system with battery price can also be influenced by choices in solar panels, charge controllers, and inverters.

How do solar panels work in Luxembourg?

To put it plainly: owners of solar panels consume the energy produced by their panels directly. If there is any electricity left over, it is sold back to the grid at a rate set by the government. This is the most subsidised in Luxembourg. This system has a number of advantages: It also enables them to generate additional income.

How much does a 7kWh Solar System cost?

A standard 7kWh system, suitable for a three-bedroom home, usually costs around EUR8,500. This investment typically includes the battery unit (EUR4,000-6,000), inverter (EUR1,500-2,000), and installation labour (EUR1,000-1,500). Additional components such as monitoring systems and smart controls add approximately EUR500-1,000 to the total.

Are photovoltaic panels subsidised in Luxembourg?

The installation of photovoltaic panels is heavily subsidised by the Luxembourg government and local authorities. This practice is fully in line with the national objective of reducing greenhouse gas emissions (-55% by 2030). Consult our Guide to photovoltaic subsidies in Luxembourg (subsidies 2025).

How much does a solar system cost?

The total cost for these systems generally falls between EUR5,000 and EUR12,000, including installation and essential components. A standard 7kWh system, suitable for a three-bedroom home, usually costs around EUR8,500. This investment typically includes the battery unit (EUR4,000-6,000), inverter (EUR1,500-2,000), and installation labour (EUR1,000-1,500).
