

What is the business case for Bess in Italy?

Revenue Streams for BESS: The business case for BESS in Italy is underpinned by four main revenue streams: wholesale trading, the Ancillary Services Market (MSD), the Capacity Market (MC), and the new energy storage subsidy scheme (MACSE).

Is Bess a good investment in northern Italy?

While Northern Italy currently has the largest installed BESS capacity in the country, a build-out of RES in the South is increasing energy price volatility, creating a more compelling investment case for BESS in this region.

How much Bess capacity does Italy have in 2025?

As of March 2025, Italy has got 1GW of grid-scale BESS capacity online, placing the country in third place in Europe (shared with Ireland) in terms of installed capacity, behind Germany (1.6GW) and the UK (5.6GW). Another 1.75GW is under construction, projects totaling 230MW have obtained permits, and 1.2GW of new BESS capacity has been announced.

Why is Terna launching a Bess project in 2025?

To attract more BESS capacity, the Italian regulator and Transmission Service Operator (TSO), Terna, are offering contracted revenue streams for BESS projects. As of early 2025, this has resulted in two waves of BESS projects coming online.

Can a Bess financing mechanism unlock long-term revenue streams?

In the article, Ivano Saltarelli and Daria Buonfiglio explain how this custom-designed mechanism - specifically built for the Italian energy context - is set to unlock stable, long-term revenue streams for standalone BESS projects, making it an innovative tool to unlock financing for BESS projects.

Does Italy's Bess market hit a milestone?

Italy's BESS Market Hits a Milestone We're proud to see Green Horse Advisory featured in the latest edition of Project Finance International (PFI) - one of Europe's most respected financial publications - for our insights on the upcoming MACSE tender.

In the article, Ivano Saltarelli and Daria Buonfiglio explain how this custom-designed mechanism - specifically built for the Italian energy context - is set to unlock stable, ...

News | 19.6.2025 Korkia's project portfolio in Italy has achieved a significant milestone in recent months. Three solar power plant projects and one Battery Energy Storage System (BESS) ...

Battery energy storage systems (BESS) store electricity and flexibly dispatch it on the grid. They can stack revenue streams offering arbitrage, capacity and ancillary services ...

Neoen and Nidec announced construction of a 9 MW/93.9 MWh BESS - the largest BESS project in both Sweden and all of Northern Europe. It is expected to enter operation in the first half of 2025. BESS remained the ...
