

What is the future of Bess in Latin America?

To provide a view of what is to come, AMI breaks down the status and opportunities of BESS in main Latin American markets. Chile passed an energy storage and electromobility bill in late 2022, making stand-alone storage projects profitable for operators.

How will Bess be compensated in 2021?

Colombia's BESS tender in 2021, won by Canadian Solar, was a good step forward, but there is still no clear regulation on how stand-alone BESS will be compensated. Regulators are debating whether to handle storage as a transmission or generation asset, given its flexibility.

Will a PPA add Bess in Puerto Rico?

Under ASAP, IPPs with existing PPAs with Puerto Rico's Power Authority (PREPA) would add BESS at their locations "on an accelerated basis," leading to an estimated 380 MW of additional contracted BESS capacity by 2026. 3 Peru has no existing BESS regulation and is currently evaluating how to move forward with battery storage projects.

Can Bess projects be bundled together?

Independent BESS projects, only supporting renewable energy projects, can be bundled together, and issued as green bonds to potential large investors.

Does Colombia have a power purchase agreement for hybrid solar & Bess projects?

As of now, Colombia's reliability charge (Cargo por Confiabilidad) has encouraged hybrid solar + BESS projects to progress. Large energy companies have expressed that there are no Power Purchasing Agreements (PPAs) available specifically for stand-alone storage projects, making it harder to finance those projects.

Is Bess a good investment?

Although risk-taking investors seeking a higher return on their investment in BESS can translate into higher energy tariffs, it is not ideal for large-scale adoption of BESS. Moreover, the capital available with this class of investors is limited compared to this solution's growth potential.

This report focuses on cases across Asia, Sub-Saharan Africa, Latin America and the Caribbean, and the Pacific. Cases are centered on three topics crucial for understanding BESS trends in ...

An Aypa Power battery storage project. Image: Aypa Power. Developer-operator Aypa Power has closed a US\$190 million financing for the 200MW/400MWh Bypass BESS project. Located near Houston, in Fort Bend ...

Emily Sidhu, director in the banking and investment team at UK Infrastructure Bank (UKIB), explains that the main barrier to the project financing of BESS projects relates to revenues. ...
