

Due to a decline in BESS prices in the recent past, a higher BESS capacity of 13,200 MWh, up from 4,000 MWh, is envisaged as part of the VGF program under the ...

The Polish energy regulator has allocated 570 MW of PV capacity in a procurement exercise for projects exceeding 1 MW in size and around 300 MW in an auction ...

The contract has been secured at the clearing price of 264.9PLN (EUR62.14)/kW/year. This secures a revenue stream for the project for 17 years, Pacific Green said.

The full details of the tender (in Romanian) can be found here. Just prior to announcing the Romania project, R.Power also said it would start building a BESS in Poland in ...

Is Poland moving towards battery energy storage systems (Bess)? As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage ...

EDPR has secured 17-year contracts for two projects, one with a 60-MW/241-MWh capacity and a commercial operations date (COD) set for 2026, and one of 100 MW/400 MWh with a COD scheduled for 2029. Polish ...

In autumn 2024 two draft regulations were published regarding state aid for large-scale electricity storage systems (BESS), one from the Modernisation Fund ("MF ") 1 - and the second under the National Recovery ...

The projects awarded include: A 60 MW (241 MWh) BESS project with COD expected in 2026, and; A 100 MW (400 MWh) BESS project with COD expected in 2029.

In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids ...

Similarly, PowerChina's 2025-2026 energy storage system procurement, which sought 16 GWh of BESS in its 2025 procurement, stipulated that battery production dates must not exceed three months before actual ...

Total volume and price range will be announced this coming Thursday (14 December), with more detailed results most likely in Early January. As of October 2023, around 9GW of projects have received grid connection ...

The draft parameters for this year's capacity market auction in Poland could make the rollout of battery energy

storage systems (BESS) much more difficult. The document proposes a significant reduction to the BESS ...

On 25 July 2024, the Bulgarian Ministry of Energy closed the open discussion on the terms and conditions for the upcoming battery energy storage system (BESS) tender, ...

Malaysia tendering out BESS projects totalling 400MW with COD from 2026. PETRA, through Energy Commission of Malaysia (Suruhanjaya Tenaga (Energy Commission), have invited ...

A swap involves exchanging a fixed price (paid by the offtaker) for a floating price (paid by the owner, based on the market proceeds generated by the BESS). Swaps may ...

Similarly, PowerChina's 2025-2026 energy storage system procurement, which sought 16 GWh of BESS in its 2025 procurement, stipulated that battery production dates must ...
