

# Battery storage container tender price in Saudi Arabia 2030

Is Saudi Arabia preparing for a 2gw/8gwh battery storage tender?

Saudi Arabia's government entity tasked with procuring electricity generation projects has commenced the qualification process for a 2GW/8GWh battery storage tender. Saudi Power Procurement Company (SPPC), licensed as the sole buyer of electrical energy and capacity from sources within the Kingdom, made the announcement on Monday (4 November).

Will Saudi Arabia be able to deploy battery energy storage systems by 2030?

According to Saudi Energy Minister Prince Abdulaziz bin Salman, the nation has set a goal of deploying 48GWh of battery energy storage systems by 2030. This ambitious target not only supports Saudi Arabia's energy transition but also injects fresh momentum into the global renewable energy and energy storage markets.

What is the world's largest storage procurement process in Saudi Arabia?

World's largest storage procurement process is underway in Saudi Arabia for 2 GW/8 GWh of storage. Saudi Arabia has ramped up its renewable generation capacity targets with the ultimate goal of reaching net-zero carbon emissions by 2060 Image: Nextracker From ESS News

How will the new Bess procurement programme help Saudi Arabia?

The biggest share will be spent on transmission upgrades and renewable energy, with a smaller investment in the distribution network. SPPC said on Monday that the newly launched BESS procurement programme will enable Saudi Arabia to reach that 50% goal, with the current tender representing the first tranche of solicitations.
