

TagEnergy, a company engaged in energy production and the development of storage solutions, has signed a three-year strategic investment agreement with Banque des ...

The rise of bankable BESS projects in Europe As the renewable energy sector rapidly evolves, battery energy storage systems (BESS) are emerging as a critical pillar for decarbonization.

Innovative financing models and public-private partnerships are paving the way for the large-scale deployment of energy storage technologies essential for integrating ...

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, the sector continues to grow as developers ...

Recently, Peak Power conducted an energy storage finance webinar that focused on strategies available for financing battery storage system projects. The webinar aimed to provide valuable insights into financing options ...

To achieve their SAF ambition, DHL has partnered with Air France-KLM Martinair Cargo to purchase ~25kt of SAF, with bp and Neste to buy ~630kt of SAF up to 2026, and with ...

B NP Paribas is stepping up its support for the energy transition by massively redirecting its financing towards a low-carbon economy. With its leadership in sustainable finance, the Group plays a key role in financing ...

To assess the impacts of these developments on investment and deal flow, the American Council on Renewable Energy (ACORE) surveyed companies that actively develop or finance U.S. ...

TotalEnergies develops battery-based electricity storage solutions, an essential complement to renewable energies. Find out more about our projects and achievements in this field.

Foreword As part of the U.S. Department of Energy's (DOE's) Energy Storage Grand Challenge (ESGC), DOE intends to synthesize and disseminate best-available energy storage data, ...

ZE Energy, a France-based solar and energy storage project developer, closed an assetco financing to construct a 77 MWp solar project coupled with a 14.8 MW/33.5 MWh lithium-ion battery storage project.

EASE has produced an analysis of all draft National Energy and Climate Plans (NECPs) released in 2023, to

help readers assess how, or even if, energy storage is accounted for in Member ...

French oil major TotalEnergies said on Wednesday it would invest 160 million euros (\$172.7 million) in six new battery storage projects in Germany to be commissioned next ...

Financing options for commercial and industrial energy storage projects are varied and designed to cater to different business needs. Here are some key options:

Paris, April 8, 2025 - TagEnergy, a leader in clean energy production behind construction of the largest battery energy storage platform in France, and Banque des Territoires, announce a ...

2026 marks a defining moment not only for Europe's energy storage sector, but for the global energy transition as a whole. The Energy Storage Summit will spotlight the critical role storage plays in achieving net zero, while also ...
