

# Domestic energy storage tender price in Ukraine 2026

What does DTEK's new energy storage system mean for Ukraine?

The new project aims to strengthen Ukraine's energy security and support the transition to a greener energy system. DTEK Group aims to commission the new storage systems by September 2025.

Will DTEK build a 200MW battery energy storage system in Ukraine?

DTEK unveils EUR140m plan for 200MW battery energy storage systems in Ukraine. (Credit: DTEK) DTEK Group, a private investor in Ukraine's energy sector, has announced a EUR140m investment plan to construct a series of battery energy storage systems (BESS) in the country with a combined capacity of 200MW.

Why is DTEK investing EUR140m in a battery energy storage system?

(Credit: DTEK) DTEK Group, a private investor in Ukraine's energy sector, has announced a EUR140m investment plan to construct a series of battery energy storage systems (BESS) in the country with a combined capacity of 200MW. The new project aims to strengthen Ukraine's energy security and support the transition to a greener energy system.

When will DTEK's new energy storage systems be operational?

DTEK Group aims to commission the new storage systems by September 2025. Once operational, these energy storage facilities will provide ancillary services to Ukraine's Transmission System Operator Ukrenergo.

When did the Electricity Market Law become effective in Ukraine?

became effective on 27 July 2023. The Law introduces amendments to several laws in Ukraine (most importantly the Law "On Alternative Energy Sources"<sup>47</sup> and the Law "On the Electricity Market",<sup>48</sup> (hereinafter the Electricity Market Law), partially transposing provisions of the RED

In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids ...

The Bulgarian Ministry of Energy recently announced that it has granted construction permits for energy storage projects totaling 9,712.89MWh based on the results of ...

Russian strikes on the Ukrainian gas production grids that occurred during January-March caused major disruptions in the Ukrainian natural gas market. When attacking Ukraine's energy infrastructure, the Russians ...

The plan, jointly published by China's top economic planner, the National Development and Reform Commission and the National Energy Administration, also sets out ambitious targets ...

# Domestic energy storage tender price in Ukraine 2026

Ukrenergo focused on the need for distributed placement of energy storage units throughout Ukraine, taking into account optimal costs for the development of electric networks, ...

This report covers the following energy storage technologies: lithium-ion batteries, lead-acid batteries, pumped-storage hydropower, compressed-air energy storage, redox flow batteries, ...

Launching the fund in 2024, Ukraine will further solidify its commitment to significantly reduce CO<sub>2</sub> emissions by 2035. Enhanced Energy Storage Solutions Modernising energy storage capacities is becoming crucial as ...

Moldova intends to launch a new tender this autumn for large-scale renewable energy generation and energy storage system (BESS) projects, with the specific auction volumes and additional details yet to be determined ...

However, in October-December, Europe saw an increase in electricity prices due to high winter demand, rising gas prices, a shortage of solar energy and windless periods. At the same time, negative prices broke a new ...

The main reasons for the low utilization of the "new energy + storage" application model lie in the overreach of local planning for energy storage construction, cost pressure resulting in more ...

The information on eTenders, EOI, GPN and other public and private tenders from various industry sectors in Ukraine is sourced from newspapers, government public procurement portals and individual purchasers websites.

The Quarterly report on ESS captures all the important updates on the energy storage in the past quarter. The report includes quarterly ESS market snapshot along with tenders issued, projects commissioned along with the projects still ...

However, projections for the 2025-2026 winter highlight a major challenge: the need to import up to 3 Bcm to replenish reserves, according to Sergiy Makogon. Ukraine is therefore striving to ...

Battery energy storage systems (BESS) projects developed by Statera Energy, SSE Renewables and Statkraft UK all secured contracts through NESO's Voltage 2026 tender, with a fourth contract awarded to a reactor in ...

Since Russia's invasion in February 2022, Ukraine has accelerated integration of its energy trade and infrastructure with Europe, moving away from its historical ties with ...

## **Domestic energy storage tender price in Ukraine 2026**

The first pilot deployment of a large-scale electrochemical energy storage system (ESS) has been completed in the Ukraine, less than a year after system supply ...
