

Will the external ESS market recover in 2025?

IDC expects that the recovery of the external ESS market will be pushed into 2025 as the strong growth in investments into computing infrastructure will start slowing down.

Which companies are leading the ESS market?

“Leading Companies Drive Market Growth with Advanced Battery Innovations” Big shots in the ESS market include ABB, General Electric, Samsung, LG among others due to their huge investments in ESS production. Such companies are joined by many more, including Panasonic and Hitachi, which gives it a major status.

What factors contributed to the growth of the ESS market?

There are various factors that may have contributed to the growth of the ESS market; a key factor being the realization of the need for a reliable energy storage system that is instrumental in providing reliable energy to the communities.
