

# Enterprise ESS system tender price in Korea 2026

Why is South Korea launching the ESS central contract market auction?

The South Korean government, under the auspices of its carbon neutrality and energy transition goals, has launched the 2025 1st ESS Central Contract Market auction, marking an evolution in the country's battery energy storage system strategy. South Korea has committed to increasing renewable energy capacity while maintaining grid stability.

Will Korea continue ESS procurement in 2026?

Under the 11th Basic Plan for Electricity Supply and Demand, Korea intends to continue ESS procurement through the Central Contract Market mechanism, totaling 2.1 GW on the mainland between 2026 and 2029, and 0.12 GW in Jeju between 2026 and 2028. In light of this plan, further rounds of ESS auctions are expected in the coming years.

How does ESS work in Korea?

The ESS market in Korea is designed as a centralized auction system the Korea Power Exchange (KPX) administers, where winning bidders enter into 15-year fixed-capacity contracts to supply standby grid support.

When will ESS be completed?

The first ESS facilities are expected to be completed in early 2025. A total of 13 power providers from 11 companies with a total capacity of 206MW participated in the tender. Competition resulted in the bid price dropping by about 15pc from initial expectations of the successful bid price, although Motie did not disclose the price.

Are ESS products safe in Korea?

In Korea, ESS-related products are subject to stringent safety and quality certifications, including KCs certification and KCs certification for explosion-proof equipment.

Is ESS a viable alternative energy resource?

ESS is a flexible resource that contributes to system stabilisation and can respond to the volatility of renewable energy, Motie said. But its distribution has been limited because of difficulties in recovering investment costs in the current unified electricity market.

Polaris Energy Storage Network News: On May 14, Chongqing Liangjiang Changxing Power Co., Ltd. issued a tender announcement for the EPC of user-side ESS ...

The external OEM enterprise storage systems (ESS) market reported annual growth of 3.6% in the fourth quarter of 2024, completing the year at 2.5% annual growth and \$33.5 billion in spending.
