

# Expected ROI of residential ESS project in Ghana 2030

How did Ghana's real estate sector perform in 2018?

Ghana recorded a real GDP growth of 6.5 percent, representing a 0.5 percentage point gain over 2018's figure of 6.3 percent.<sup>12</sup> The real estate sector witnessed appreciable gains as its contribution increased from 1.0 percent in 2013 to 2.7 percent in 2019.

What is the data on housing in Ghana?

Data on housing is sparse and those available are often dated. The Ghana Statistical Service (GSS) collects and publishes data on housing after conducting the population and housing census, which is undertaken every decade. Due to the pandemic the census, which was to be conducted in 2020, has been postponed to 2021.

Does Ghana have a housing finance in Africa Report?

9.2 This report is an extension of the profile for Ghana prepared for CAHF's 2020 Housing Finance in Africa Yearbook. Prime Stat-SVC was the original author of the profile. David Chiwetu has extended the report further, providing additional detail.

Does Ghana have an affordable housing market?

In this way, we catalyze scale interventions. This report highlights the progress and performance of Ghana's affordable housing market in 2020. Ghana is also a country in which CAHF has engaged substantially, together with FNB Ghana, African Union for Housing Finance (AUHF) member.

Are Estate Agents legal in Ghana?

The service of estate agents is key to the property market, however, there is no formal recognition for the practice of estate agency in Ghana. Since 2019, the Draft Rent Control law has undergone a number of iterations to enhance its robustness and responsiveness to the rental market across the country.

How much will Ghana's economy grow in 2022?

For 2020, the IMF predicted the economy to grow by 1.5 percent, however this was revised to 1.1 percent.<sup>15</sup> This contraction in growth is due to COVID-19's impact on global activities, and Ghana's economy is projected to rebound to 2.4 percent in 2022.
