

Gel battery storage tender price in Hungary 2025

Why did Hungarian government hold a battery storage tender in 2024?

In early 2024, the Hungarian government held the battery storage tender, which aimed to enhance the development of large, grid-integrated battery energy storage systems (BESS) by market participants in the country.

How much does Hungarian government spend on energy storage projects?

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power. Hungarian authorities launched the tender for grid-scale batteries on January 15 and received offers until February 5. The winning bidders were selected a few days ago.

Will Hungary provide grants for energy storage projects in 2025?

The Ministry of Energy in Hungary will provide grants for the deployment of energy storage projects, with some 1GWh targeted by 2025. From June, system operators and distribution companies will be able to apply for subsidies to build energy storage facilities by the summer of 2025 at the latest, the Ministry said.
