

Government procurement price of Solar Panel in Croatia

How much does a solar tender cost in Croatia?

The first tender, with a budget of EUR10 million, will be aimed at installing residential solar arrays in the second quarter of 2025 and will cover up to 50% of the investment costs. Additionally, the Croatian authorities will announce a EUR25 million call to co-finance solar plants and heat pumps for the public sector in the second quarter.

How much does solar energy cost in Croatia?

In a related initiative, the Croatian energy market operator HROTE hosted a renewables tender in June 2024 to secure market premium support for 607 MW of renewable energy, which included 450 MW of solar power. The tender ultimately allocated 413.5 MW of solar energy at an average price of \$0.065 per kWh.

How many MW of solar projects did Croatia tender?

The Croatian authorities initially reviewed 144 projects totaling 713 MW for the auction. The tender was carried out in two phases. One awarded market premiums for projects with installed capacities of more than 1 MW each, including 350 MW of solar, 60 MW of wind, and 7.25 MW of hydropower.

How much does a solar project cost?

The maximum reference values for premiums were EUR0.067/kWh for photovoltaics, EUR0.75/kWh for wind, and EUR0.158/kWh for hydropower. The other part of the tender procedure awarded premiums for solar projects with capacities ranging from 200 kW to 6 MW, and wind farms with capacities from 200 kW to 18 MW.

Croatia solar power market report contains insights that have been churned out using our Solar Intelligence Hub. the insights include but not limited to the market dynamics, trends, capacity ...

Price offer (divided in to price for solar panels, inverters, mounting equipment, working hours, eventual costs for data collection and presentation, eventual extra costs for snow sliding ...
