

Government procurement price of home battery pack in South Africa

Where can I find South Africa Battery tenders?

TendersOnTime, the best online tenders portal, provides latest South Africa Battery tenders, RFP, Bids and procurement notices from various states and counties in South Africa.

Does South Africa have a battery storage tender programme?

South Africa is aiming to procure utility-scale battery storage with two tender programmes: its Battery Storage IPP Procurement Programme as well as hybrid battery storage and variable renewables projects through its Risk Mitigation IPP Procurement Programme.

Why is the South African government using IPP to allocate battery storage?

In 2022, this led to unprecedented load shedding of more than 8 terawatt-hours (TWh), which was a fourfold increase in unmet demand compared with the previous year. As a result, the South African government is using its Independent Power Producer (IPP) Procurement Programmes to allocate firm capacity, including battery storage.

What is a battery energy storage IPP tender?

In November 2023, South Africa announced preferred bidders for the first Battery Energy Storage IPP Procurement Programme tender, which - if all implemented in full - would add 360 MW of dispatchable battery storage capacity to the national grid, and are now expected to enter into power purchase agreements (PPAs) negotiations with Eskom.

What is the risk mitigation IPP procurement programme in South Africa?

Within its Risk Mitigation IPP Procurement Programme, South Africa also signed project agreements with six hybrid solar PV, wind and battery storage projects that could see more than 400 MW of capacity added.

How many battery energy storage facilities will be procured under BW2?

Eight storage facilities in closest proximity to dedicated substations - Mercury, Carmel, Hermes, Ngwedi, Midas, Marang, Bighorn and Ararat, in the North West supply area - will be procured. Under BW2, the IPP Office is aiming to procure 77 MW of battery energy storage systems (BESS) at every substation, each with four hours of storage.

The list of preferred bidders for the third window of South Africa's Battery Energy Storage Independent Power Producers Procurement Program (BESIPPPP) will be announced in February 2025.
