

# Government procurement price of solar storage container in Turkey

How much is a kWh of solar energy in Turkey?

The Turkish government has set a ceiling price of TRY0.40/kWh(\$0.045) for the fifth procurement exercise of the Yeka program. Turkey had an installed PV capacity of 7 GW at the end of May. Turkey's Ministry of Energy has launched another 1.5 GW solar tender under the national Yeka (Yenilenebilir Enerji Kaynak Alanlari) renewable energy program.

How much does a large scale PV project cost in Turkey?

Through the procurement exercise, which is the fifth of the Yeka series, the Turkish authorities want to select 76 large scale PV projects with capacities ranging from 10 to 30 MW across three 23 cities. The ministry has set a ceiling price of TRY0.40/kWh (\$0.045). Applications will be received on January 12.

How much does Turkey spend on government procurement?

Turkey's government procurement, estimated at a hefty \$200 billion annually, fuels spending across infrastructure, defense, and healthcare. While transparency efforts exist through platforms like EKAP, navigating complex regulations and local preference can be tricky.

Will EMRA set a size limit for PV systems in Turkey?

Eren, board member of the Turkish Photovoltaic Association Engur said that the Turkish Energy Authority (EMRA) hopes to allocate about 20GW of PV systems by 2030 through the scheme, while the Turkish government has not yet revealed whether it will set a size limit on PV systems eligible for the incentive scheme.

Does Turkey offer a feed-in tariff subsidy?

In addition, PV projects installed with domestic PV modules in Turkey will receive an additional five-year feed-in tariff subsidy (FIT) of 0.2880 TL/kWh.
