

# Household energy storage tender price in Saudi Arabia 2026

Will Saudi Arabia develop a storage capacity of 48 gigawatt-hours?

Under the National Renewable Energy Program, which is overseen by the Ministry of Energy, Saudi Arabia aims to develop a total storage capacity of 48 gigawatt-hours by 2030. To date, projects totaling 26 gigawatt-hours have been tendered and are currently in various phases of development.

Is Saudi Arabia a leader in battery energy storage?

The Kingdom enters the top ten global rankings for battery energy storage with ambitious future capacity goals. Saudi Arabia is establishing itself as a significant player in the energy storage sector, now ranked among the top ten global markets for battery energy storage.

Will Saudi be the third biggest Bess market in 2026?

And if we add recent tenders, this will lead to a whopping 33.5 GWh of BESS capacity by 2026. This would make Saudi the third biggest global BESS market after the USA and China. While KSA is certainly leading the pack, increasing deployments can be witnessed all across MENA and the Gulf or GCC region in particular.

Will SEC tender a GWh Bess in 2024?

Furthermore, SEC is tendering a 12.5 GWh BESS on a split scope basis across five sites in KSA expecting to close in the fourth quarter of 2024. The Saudi Power Procurement Authority (SPPC) is planning annual standalone BESS tenders of 2 GW / 8 GWh from 2024 onwards, totalling 10 GW / 40 GWh by 2030.

Which MENA region will be a Bess market in 2026?

The rapid growth rate of energy storage in the MENA region, led by the GCC, is surprising many analysts. Saudi Arabia, in particular, is set to be the third biggest global BESS market after the USA and China in 2026.

Who is acquiring a Bess project in Saudi Arabia?

Most of the projects are expected to be procured by government-owned public entities, such as SPPC, SEC, EWEC and ENOWA (NEOM). The Saudi Electricity Company (SEC) awarded a 7.8 GWh BESS contract to Al Gihaz (using a Sungrow BESS) in Q2 2024 with commissioning expected in 2025.

The project comprises three sites with a total installed capacity of 7.8 GWh, located in the Najran, Madaya and Khamis Mushait regions of Saudi Arabia. Delivery is scheduled to commence in 2024. Full-capacity grid ...

Get the latest update on the 2GW/8GWh battery energy storage system tender in Saudi Arabia. Explore the shortlisted bidders and their involvement in this exciting project.

Saudi Electricity Company (SEC) issued tender for Battery Energy Storage Systems (BESS) having Combined Capacity of 2,500 MW across Saudi Arabia. Battery Energy Storage System (BESS) plant will
