

# Lithium solar battery project financing options in New Zealand 2030

What if the funding requirements for the NZ battery investment are too high?

If the funding requirements for the NZ Battery investment are much greater than anticipated, there may be increased cost burdens for the Crown or electricity consumers. The Indicative Business Case is informed by the current best available cost information, but this will continue to be updated as improved design information becomes available.

Why is the NZ battery investment proposal a high risk project?

The NZ Battery investment proposal is high risk, due to the scope, scale, and complexity of the project. An appropriate reporting and assurance approach is needed to provide assurance that the project is on track to deliver the intended outcomes. The approach to assurance for the project is outlined in Table 51.

Where can I finance a solar switch in NZ?

Contact us to arrange a free quote. Explore low and no-interest finance for solar and batteries from NZ banks like ANZ, Westpac, ASB, BNZ and Kiwibank. A smart way to fund your solar switch.

What bank loans are available for solar systems and batteries?

Here are our preferred bank loans for solar systems and batteries: Top up your ANZ Home Loan at a fixed rate of 1% per annum for 3 years. You can apply for the ANZ Good Energy Home Loan up to a maximum value of \$80,000 to purchase any of the "ANZ Good Energy Upgrades". This includes:
