

# MW scale storage system tender price in Portugal 2026

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva

How much does Portugal pay for energy storage projects?

With this in mind, the Portuguese Ministry of Energy announced on July 31 that it was awarding EUR99.75 million to a call for tenders for the installation of energy storage projects totalling 500 MW. Eligible projects can receive up to EUR30 million and be implemented at the transport and distribution level by the end of 2025.

How much will Portugal spend on energy storage and grid flexibility?

The Portuguese Ministry of Energy has allocated EUR 100 million (\$108 million) for grid flexibility and energy storage projects which should be installed by the end of 2025. Portugal is seeking to promote flexibility and balance its power system with energy storage as it continues to break records for solar energy production.

Will Portugal produce 80% renewable electricity by 2026?

As Portugal launched its first tender for biomethane and green hydrogen, Portugal's new energy strategy aims to produce 80% renewable electricity by 2026, and 85% by 2030. The Plan sets a target of 20.4 GW of operational PV systems in 2030, including 14.9 GW of large-capacity plants and 5.5 GW of decentralized generation.

Why are Portugal's electricity prices so low?

Portugal's renewable power capacity has been growing rapidly over the last years, pushing spot power prices to a decade low earlier this year. According to network operator REN, renewable energy generation covered 95% of the nation's electricity demand in April. That follows a 91% share in March, 88% in February, and 81% in January.

With this in mind, the Portuguese Ministry of Energy announced on July 31 that it was awarding EUR99.75 million to a call for tenders for the installation of energy storage projects totalling...

In a significant development for India's renewable energy sector, a solar project integrated with energy storage has recorded a tariff of INR3.32 per unit--5.8 per cent lower than the rate discovered in a similar tender by SECI in ...

The successful projects will together add at least 500 MW of energy storage to the public electricity grid. The call for proposals, which is part of the country's Recovery and Resilience Plan (RRP), was launched last

summer.

In view of the above, RVUNL hereby invites proposals for setting up of STU-connected Projects of Standalone Battery Energy Storage Systems (BESS), for an aggregate storage capacity of ...

EDPR has secured 17-year contracts for two projects, one with a 60-MW/241-MWh capacity and a commercial operations date (COD) set for 2026, and one of 100 MW/400 MWh with a COD scheduled for 2029. Polish ...

Government of India (GoI) set a new target of 500 GW of non-fossil fuel-based capacity by 2030 and is pursuing different programs for large scale renewable energy (RE) projects and already ...

The Ministry of Energy Transition and Water Transformation (PETRA), through the Energy Commission (EC), has launched an open bidding program for the acquisition of Battery Energy Storage System (BESS) capacity ...

This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On July 31, the ministry announced the allocation of EUR99.75 million ...

The Republic of Moldova will install a 75 MW energy storage system (BESS) and 22 MW internal combustion engines as part of a project funded by the U.S. Government ...

(The RFP response due date is April 28, 2025.) The proposed date for the first operation is Q3 2026. &#183; MLGW is seeking 100MW+/- of solar generation paired with 50MW+/- ...

Fresh from finalising the large scale solar 5 (LSS5) winners, the Ministry of Energy Transition and Water Transformation (Petra) is targeting to kick off the bidding round for LSS6 in the second quarter of this year.

Portugal will launch a competitive tender for 750 MVA of battery energy storage before January 2026, as part of a broader EUR400 million package aimed at improving grid ...

Portugal plans to hold an energy storage auction before January 2026 as part of a EUR400 million (\$462.2 million) initiative to enhance grid resilience following an April blackout.

Battery Energy Storage Systems (BESS) are becoming essential in the shift towards renewable energy, providing solutions for grid stability, energy management, and ...

The Portuguese Ministry of Energy has allocated EUR99.75 million (\$107.6 million) for grid flexibility and energy storage projects which should be installed by the end of 2025.

## **MW scale storage system tender price in Portugal 2026**

Greece's latest auction has awarded subsidies to 188.9 MW of standalone, front-of-the-meter, utility-scale battery energy storage. The auction was the third and final edition of a battery storage subsidy program launched in ...
