What is a solar PV scheme in Sweden?

Andreas Gustafsson, program manager for the research and innovation department of the Swedish Energy Agency stated that "The scheme represents a complementary support system to the existing scheme supporting solar PV generation in Sweden.

Should Swedish households invest in solar PV equipment?

Further, around 20% of Swedish households have expressed interest in installing solar PV equipment, in contrast to a significant proportion of homes that are rented and not owned--therefore stripping many Swedish renters of any sense of ownership and thus the need to invest in RES-technology.

Are solar energy systems a good investment in Sweden?

Halmstad and Kungsbacka have made some positive progress in installing solar energy systems, but other towns and villages in Halland County have installed only limited amounts to date. As solar energy overall in Sweden still represents less than 1% of the total energy mix, there is clearly scope for growth.

Are solar PV parks a good investment in Sweden?

Solar PV parks being rolled out above 100 MW do not seem far away, which will likely allow PV parks in Sweden to gain market share more quickly in terms of the total market. In summary, there may be some hurdles in the short term, but in the long term, the Swedish PV market is well-positioned for growth.

Can the domestic sector adopt solar energy & storage systems?

With housing tenure and type favourable, there is potential for the domestic sector to adopt solar energy and storage systems. Opportunities overall would probably relate to domestic household properties, municipal buildings, and some off-grid houses.

Why did PV module prices drop in Sweden?

A significant drop in PV module prices in Sweden due to the growing domestic market, which enabled retailers to import larger quantities, and due to the general global price decline closely tied to the advancements in mass-production of PV modules and technology development which led to the use of less material and energy per kWp of PV capacity.
