

Office building energy storage supplier quotation in Poland 2026

Should US companies offer battery energy storage systems in Poland?

U.S. Commercial Service recommends that U.S. companies offering battery energy storage systems take a hard look at the Polish market because there will be opportunities for U.S. companies to propose their solutions for many years to come. For more information, please contact Commercial Service Poland at office.warsaw@trade.gov.

Is Poland a key player in Europe's energy storage sector?

Poland is emerging as a significant player in Europe's energy storage sector. The recent capacity market auctions in December 2024 highlighted a substantial shift towards BESS, with approximately 2.5 GW secured by new generation capacity market units, predominantly Li-ion energy storage projects.

Is energy storage a good investment in Poland?

In Poland, interest in energy storage investment has been evident for some time. Last year's main auction of the power market, with capacity delivery for 2029, further bumped up the capacity of storage projects.

How can energy storage support Poland's electricity system?

By addressing challenges such as peak load balancing and frequency regulation, energy storage enhances the resilience and flexibility of Poland's electricity system. The storage support program is expected to begin accepting applications in the second quarter of 2025. Full details and deadlines will be published by the NFOSiGW.

Will energy storage systems projects be subsidised under the National Recover & Resilience Plan?

The call for proposals of projects to be subsidised under the Energy Storage Systems scheme financed from the National Recover and Resilience Plan opened on 17 February 2025. More »

How much storage capacity does Poland have in 2024?

The Polish Economic Institute reported that in the power market's main auction, which was held in December 2024, storage capacity of around 2.5 GW was contracted, indicating that this was a 44 percent increase over 2023, in which the total contracted for batteries was 1.7 GW.

The capacity market is set to kickstart the large-scale BESS market in Poland by providing the basic building blocks of the business case, according to numerous delegates interviewed by ...
