

# PV energy storage tender price in Hungary 2026

How much does Hungarian government spend on energy storage projects?

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power. Hungarian authorities launched the tender for grid-scale batteries on January 15 and received offers until February 5. The winning bidders were selected a few days ago.

Will Hungarian energy storage projects get subsidy support?

The Hungarian Ministry of Energy has announced that around 50 grid-scale energy storage projects with a cumulative capacity of 440 MW have received subsidy support through a tender launched in February this year.

How will the Hungarian government support residential PV in 2024?

In 2024, the Hungarian government continues to support the growth of residential PV through its newly launched Napenergia Plusz Program, a grant scheme for the installation of modern solar panel and storage systems with a total budget of HUF 75.8 billion. The scheme is expected to support over 15,000 households.

How many solar facilities will Hungary have in 2026?

In another tender, for a wider range of companies, contracts are being signed to support the completion of 50 facilities in 2026 with HUF 62bn of state contributions. Lantos said Hungary's solar energy capacity has surpassed 7.5 GW.

Is MAVIR building a 20 MW energy storage system in Hungary?

With funds obtained within a previous program, the country's transmission system operator MAVIR is already building a 20 MW energy storage system in Szolnok in central Hungary, the ministry noted.

Will a loss of imports affect Hungary's oil & gas supply?

Talking about the stability of Hungary's oil and gas supply, the minister said the majority of fossil fuel shipments now arrive from the south, the complete loss of imports from the east does not pose an immediate risk to supply security.
