

Similarly, Australia is likely to see 100-200% yoy growth in BESS deployments in 2025 and 2026, driven by the 5-minute time intervals and price only nature of our electricity market, with a ...

The focus of the federal government's Capacity Investment Scheme has turned to Western Australia with two tenders to open later this month seeking 1.6 GW of renewable ...

Around a third of WEM electricity already comes from cheap, clean, reliable renewable energy, with a record breaking peak, last year, of more than 84%. The next WA tender for clean energy generation and storage is ...

However, while the falling prices of materials significantly helped along the drop last year (also evident in a 20% fall in average battery pack prices), there are a myriad of other factors which have driven that reduction, ...

Since 2023, the battleground of pricing has grown fiercer, with the cost of lithium carbonate plummeting, signaling an escalation in the price wars of ESS tender projects. Amidst industry fluctuations, pricing has emerged as ...

The French Ministry of Ecological Transition this week announced 71 winners in its PPE2 tender for ground-mounted solar photovoltaic (PV) projects with an average proposed price of EUR 58.84 (USD 65.23) per ...

Small solar system prices dip while larger system pricing spikes back to late 2022 rates. LGC solar system prices show greatest drop in price since mid 2021. Solar prices increase as demand for commercial solar surges. Solar prices hold ...

Twelve of the 19 successful Capacity Investment Scheme Tender 1 bids have been allocated for 2,750 MW of solar generation, split between New South Wales, Victoria and Queensland.

Photovoltaic Markets and Technology Reliance Industries Limited (RIL) is set to begin production at its upcoming battery gigafactory in 2026, with an initial annual capacity of 40 GWh. The facility will later be modularly scaled ...

According to Polaris Energy Storage Network, in May, Dingxi City, Gansu Province, issued an EPC tender for the integrated PV ESS and charging piles project in Anding ...

In a significant development for India's renewable energy sector, a solar project integrated with energy storage

has recorded a tariff of INR3.32 per unit--5.8 per cent lower than ...

The National Renewable Energy Laboratory (NREL) publishes benchmark reports that disaggregate photovoltaic (PV) and energy storage (battery) system installation costs to inform ...

In total, 6.3GW was awarded across wind and solar PV power plants. Image: EDL. The first Capacity Investment Scheme (CIS) tender round in Australia successfully awarded 3.5GWh of co-located battery energy storage ...

NHPC Limited is seeking to select Solar Power Generators for the establishment of 1200 MW grid-connected solar PV power projects with 600MW/1200MWh Energy Storage Systems ...

The competitive round will offer 9,378 MW of capacity from ground-mounted and rooftop solar and floating photovoltaic (PV) projects, as well as onshore wind schemes, to be installed between 2026 and 2029. The tender ...

6 ???&#0183; New South Wales is targeting a 4 GW jump to 16 GW of new generation by 2030, and aims to kick start investor incentives with a 7,000 GWh tender in early 2026 through its long ...
