

# Portable ESS system cost vs benefit calculation in New Zealand

How is ESS taxed in New Zealand?

In New Zealand, the taxation of ESS is governed by the Income Tax Act 2007, with specific rules that benefit startups. For 2025, tax advantages remain a key incentive for employees taking part in an ESS. Generally, employees who purchase options under an ESS benefit from the following tax advantages:

How is the value of an ESS benefit calculated?

The value of an ESS benefit is calculated on the share scheme taxing date. This is the earlier of the following dates: The date the employee (or associate) beneficially holds the shares and there are no conditions or protections under the scheme that would defer the taxing date.

How is an ESS benefit taxed?

An ESS benefit is treated as income for the employee or shareholder-employee, even if the benefit is provided to an associate. The value of an ESS benefit is calculated on the share scheme taxing date. This is the earlier of the following dates:

Does New Zealand's Inland Revenue scrutinise ESS schemes more closely?

New Zealand's Inland Revenue is making an on-going effort to scrutinise ESS schemes more closely, concerned at a lack of transparency in the process, and the frequency of underpayment by employees.

Are employee share schemes a good investment in New Zealand?

Employee Share Schemes (ESS) continue to be an attractive option for many startups and small businesses in New Zealand in 2025. With the right structure in place, employers can offer valuable tax benefits to employees participating in an ESS, thereby supporting both recruitment and retention in a competitive market.

Is ESS tax deductible?

The deduction will be equal to the employee's share benefit income and would be deductible when it is taxable to the employee. The concern is that for many start-up companies the ESS benefit will be difficult to value and any resulting tax difficult to fund. This is due to the lack of an active market for the shares.
