

# Solar Inverter project financing options in Mexico 2026

Why is Mexico not a good place to invest in solar energy?

National financial institutions in Mexico also have little experience in evaluating and financing large-scale solar projects. Furthermore, cooperation between the private sector, science and research, and state institutions is still underdeveloped and unable to spur investment in innovative technologies.

Why are solar projects a problem in Mexico?

Consequently, the technical and commercial risks associated with projects are often estimated as being too high and therefore prevent project developers from investing in solar energy technologies. National financial institutions in Mexico also have little experience in evaluating and financing large-scale solar projects.

Can solar panels be used at night in Mexico?

Having a battery bank in your home to store the energy your panels produce during the day is a thing of the past, now you can feed the utility grid in Mexico during the day while your solar panels are generating and utilize the grid's energy during the night at no cost to you.

How much money does Mexico spend on solar energy?

Mexico spends roughly \$6 billion annually on electricity subsidies. Recently, a climate advocacy NGO called the Mexican Climate Initiative (ICM) developed a solar bond program to use a percentage of the money from the electric subsidy program to invest in solar energy projects.

Will solar plants be able to provide capacity in the Mexican market?

There have been some capacity selling offers from solar plants awarded in the auctions executed in the Mexican market during 2017, but this brings uncertainty regarding whether these plants will be able to provide the committed capacity in critical periods.

What is the Mexican Center for innovation in solar energy (Cemie-Sol)?

One of the key partners in terms of innovation and technology transfer is the Mexican Center for Innovation in Solar Energy (CeMIE-Sol), a network of academic and private institutions. GIZ advises CeMIE-Sol's scientific committee and supports strategic projects in collaboration with enterprises and research institutions in both Mexico and Germany.
