

Solar storage container project financing options in France 2026

How is France preparing for a solar project?

To meet these targets, France will rely heavily on structured tendering procedures. Beginning in the first half of 2025, the government plans to launch two annual tenders for ground-mounted solar projects, each awarding 1 GW of capacity. In parallel, three rooftop solar tenders per year are scheduled, with each round targeting approximately 300 MW.

How much solar power does France have in 2024?

In 2024 alone, the country added 4.6 GW of new solar capacity, bringing its cumulative total to 22.1 GW.¹ This growth shows no signs of slowing. According to SolarPower Europe, France's operational solar capacity could reach 52 GW by 2028, implying an additional 30 GW of installations over the next four years.²

Who attends solar finance & investment Europe Summit 2025?

Attendees include top European utilities, developers, IPPs, investment firms, policymakers and technology innovators. Solar Finance & Investment Europe Summit 2025 is your chance to connect with the key players shaping the future of solar and storage across Europe--your platform to engage, learn, and lead.

What is solar finance & investment Europe?

Welcome to Solar Finance & Investment Europe! Join us 4-5 February 2025 at Novotel London West for the leading event dedicated to driving solar investment across Europe. As the sector accelerates toward ambitious renewable targets, this summit unites the top decision-makers in finance, development, and energy from across the continent.

What is solar finance & investment Europe Summit?

Solar Finance & Investment Europe Summit brought together the brightest minds representing funds, banks, developers, utilities, government and industry across Europe and the UK on a programme that is solutions-focused from top to tail.

Who can attend solar finance & development?

Join hundreds of senior leaders in solar finance and development for dynamic conversations and relationship-building. Attendees include top European utilities, developers, IPPs, investment firms, policymakers and technology innovators.
