When will the price of gas storage facilities be set?

Both firm and variable price component for gas storage facilities for 2026 will be set by the Energy Regulatory Office in the new price decision in November 2025. NET4GAS is the exclusive gas transmission system operator in the Czech Republic.

Will a battery storage system help Czech companies achieve net zero?

The high penetration of renewable generation projects in the region could deliver a large amount of clean energy and really accelerate the journey to net zero,but at the moment Czech companies are not in a position to reap the full benefits of solar and other renewable energy sources. To do so,battery storage will be essential.

Why are Czech businesses investing in renewable projects without subsidies?

The subsidy increases to cover up to 75% of costs for community projects. But what we noticed at Wattstor is that Czech businesses are investing in renewable projects even in the absence of subsidies,because they have realised the strong business case for generating clean energy on site.

What incentives are there for onsite generation in the Czech Republic?

At the same time, stakeholder and regulatory pressure encouraged Czech organisations to invest in renewable power. There are several EU incentives to spur the growth of onsite generation. For example, the Modernisation Fund supports investments in energy efficiency, storage, network upgrades and the re-skilling of workers.
