

Successful bid price of BESS project in Sweden 2026

How profitable is Bess in southern Sweden?

August 6th serves as a compelling example of BESS profitability in southern Sweden. Power prices fluctuated significantly throughout the day, offering multiple trading opportunities across different markets: Energy arbitrage in intraday and day-ahead markets: A 1MW battery could earn EUR250 in just four hours of trading.

Which companies are launching Bess projects in the Nordics & the Baltics?

News from the Nordics and the Baltics, with BESS projects launched in Sweden, Denmark and Latvia by Centrica, Nordic Solar and Niam Infrastructure and Evecon. UK-headquartered utility Centrica has acquired a 100MW battery energy storage system (BESS) portfolio in Sweden from Swiss developer and independent power producer (IPP) Fu-Gen AG.

Why did Bess invest in SE3?

This transaction supports the company's ongoing ambition to accelerate the transition to renewable energy in the Nordic region. The 10MW BESS will be strategically located in SE3, helping to stabilize the grid by providing ancillary and balancing services across frequency markets.

Where is Bess located?

The BESS will be in Borupin the municipality of Hillerod on Zealand and will be the first of many more BESS projects for the company. It is adding BESS to solar projects it has already been developing and the total energy storage capacity planned is close to 1GWh, across 25 sites.

What is Res's largest Bess project in Nge?

This is RES's largest BESS project in the Nordic region to date and marks the company's fifth successful project in Nge municipality. The project has been developed from the ground up by RES and is now being acquired as a fully ready-to-build asset.

When will Bess become operational?

The company expects the first BESS facilities to become operational in 2026. "The acquisition strengthens our position as a leading provider of flexibility energy solutions across Europe," stated Ulrika Wising, managing director of Centrica Power.

Elia said that 22 projects took part, adding up to 1,576MW. All projects bidding in the auction were successful, and although natural gas resources comprised the majority of bids, there was also a significant number ...

The Australian Battery Energy Storage Systems (BESS) market has attracted significant investment interest due to its crucial role in supporting renewables penetration and ensuring ...
