

Successful bid price of Solar Panel project in Ireland 2025

How much does a solar PV system cost in Ireland?

A solar PV system costs between EUR4,600 - EUR8,700 in Ireland in 2025 with the SEAI grant. The exact price will depend on the number and type of solar panels used. You can expect the peak solar output of your solar PV system to be between 1.76kWp to 7.04kWp.

How much does a commercial solar panel installation cost in Ireland?

The cost of commercial PV panel installations depends on the size and complexity of the project. The price per watt may decrease for larger systems due to economies of scale. Commercial solar PV installations in Ireland cost between EUR15,000 and EUR200,000 or more, depending on the project's size and requirements.

How much do solar panels cost in 2025?

The average price for a typical household is EUR6,800 - EUR7,800 for 12 to 14 solar panels, after taking the EUR1,800 SEAI grant into consideration. Thanks to advances in solar cell technology, improved manufacturing scale and domestic government policy - PV panels cost significantly less in 2025 than in previous years.

Will Ireland see a rise in solar panels in 2025?

The solar panel industry in Ireland has only gone from strength to strength since its inception. However, in 2025, we'll see a rise in different types of solar panels installed in homes across the country. At Wizer, we know that there isn't a one-size-fits-all approach to solar panel systems.
