

Successful bid price of on grid solar storage project in Portugal 2026

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva

How much does a solar auction cost in Portugal?

Portugal's second solar auction has closed with record-breaking low prices of EUR11.14/MWh(US\$13.12), or US\$0.0131/kWh, the country's government announced yesterday. Of the 700MW available for auction, 670MW was awarded, with Hanwha Q CELLS winning half of the 12 lots with bids that included battery storage.

How many solar projects will Portugal have in 2024?

The company's six solar projects are expected to be completed in 2024. Portugal is only realising one solar auction in 2020 as a result of the ongoing COVID-19 pandemic. As of 2021, however, the government is looking to carry out two per year, awarding a total capacity of 1GW per annum.

Is grid access a scarce resource in Portugal?

Secretary of state for energy João Galamba said that grid access is a scarce resource in Portugal in an interview with PV Tech. Image: Portuguese government.

What is the lowest PV bid in Portugal?

It also comes in around 25% lower than the lowest bid in Portugal's first PV tender last year, which was EUR14.76/MWh and at the time itself a record. Held on 24 and 25 August, the latest auction was for lots in Portugal's southern regions of Alentejo and Algarve. Originally due to take place in spring, it was delayed due to COVID-19.

What is the lowest bid for a solar project?

The lowest bid falls below the previous solar industry record tariff of US\$0.0135/kWh set by the Al Dhafra project in Abu Dhabi in April. It also comes in around 25% lower than the lowest bid in Portugal's first PV tender last year, which was EUR14.76/MWh and at the time itself a record.

Portugal's latest solar auction made headlines earlier this month as record-low negative bids were posted, with the results illustrating the value developers place on securing a grid connection ...

A global market place for solar and storage solutions Join us at Solar & Storage Live as we spearhead the revolution towards a brighter, greener future! Our mission is to accelerate the adoption of solar energy propelling us towards a ...

Successful bid price of on grid solar storage project in Portugal 2026

The Portuguese government has revealed preliminary results from the nation's second solar auction. It allocated 670 MW of solar capacity, instead of 700 MW, as initially planned, with the ...

Portugal set a record for solar deployment in 2024, installing 1.77 GW and surpassing the previous year's total. The country's cumulative installed PV capacity now stands at 5.66 GW, as it works ...

A standout feature is the addition of 1,100 MW of solar capacity paired with energy storage systems (ESS), dubbed Integrated Renewable Energy and Energy Storage ...
