

Turnkey Solar Inverter EPC contract price in Guernsey

What is a turnkey EPC contract?

The key thing to note is that with a turnkey EPC contract, you can't get just a piece of the package. For example, if you just want to dip your toe into solar to see if it would be a good fit for your business, an EPC contract won't allow you to just purchase an energy assessment or a site survey - you have to buy the entire solar package.

What is a turnkey solar system?

VeloSolar o Updated on March 13,2023 o 8 minutes read In the solar world,Engineering Procurement and Construction (EPC) contractors typically provide a turnkey service. They deliver a ready-to-use solar system; when they're done working,all you have to do is turn the proverbial key and you're generating your own clean,renewable energy.

Why should you hire an EPC 2.0 firm?

When you hire a EPC 2.0 firm,like Velo Solar,you're getting an entire team of solar experts,including a project management team and engineering,design,construction,software,energy storage and solar system optimization professionals. An EPC 2.0 firm acts like a project management consultancy.

Will EPC contracts provide for the handover of a solar facility?

EPC Contracts will not provide for the handover of the solar facility to the Project Company,and the PPA will not become effective until all commissioning and reliability trialling has been successfully completed.

How many panels should a guernsey home have?

A typical Guernsey home has at least one roof that faces east,south or west,or a flat roof that may be open to all the sun's orientations. From a few panels to four panels or more and typically 6 to 10 panels,you can maximise your generation by maximising your roof spaces.

How does an EPC contract work?

Here's how it works: The scope of work for your solar project is laid out in the initial EPC contract, as is the lump sum cost of the project. The contract price includes everything that's needed to design, build, and install your turnkey system.
