

Turnkey rooftop solar storage EPC contract price in Poland

How do EPC contracts work in Poland?

The investment costs, in part or in full, can be repaid from the achieved and guaranteed (under the EPC contract) energy savings, through the visible difference in energy bills. The Polish guidelines for EPC contracts are assigned to public sector entities, encompassing a range of energy efficiency projects.

Will EPC contracts provide for the handover of a solar facility?

EPC Contracts will not provide for the handover of the solar facility to the Project Company, and the PPA will not become effective until all commissioning and reliability trialling has been successfully completed.

What are Poland's new EPC guidelines?

The new EPC guidelines offer a structured approach to improving energy efficiency, particularly in public sector projects. This move is a part of Poland's strategic energy policy, aiming for a more sustainable and efficient energy use across the country, and reinforcing the nation's commitment to energy efficiency and climate goals.

Should you choose an EPC contract for a solar project?

Given the significant monetary value of EPC Contracts, and the potential adverse consequences if problems occur during construction, the lowest price should not be the only factor used when selecting a Contractor. As noted earlier, an EPC Contract is one of a suite of agreements necessary to develop a solar project.

What is Econergy doing in Poland?

The project forms part of Econergy's wider expansion in the Polish market, with a developing pipeline of 41 solar PV projects with a total capacity of 940MW. Since 2021 Econergy has expanded its pipeline of solar PV project in Poland by approximately 63% as it looks to increase its operations across Europe.

Why should you invest in photovoltaic panels in Poland?

Photovoltaics, like heat pumps, have become one of the fastest-growing energy sectors in Poland. Investing in photovoltaic panels is not only a way to save money but also to increase independence from rising electricity prices. By generating electricity from renewable energy sources, you can protect the environment while reducing your bills.

Figure 6 - Full-wrap contract vs split EPC contract with umbrella agreement 12.1. Interface between EPC contract and regulatory framework The EPC service provider's activities are also defined by the applicable regulatory requirements ...

E.g., delay LD and performance LD could each be capped at 20% of the EPC contract price and the combined cap is 30% of the EPC contract price Commissioning and acceptance
