

Utility scale ESS project financing options in Saudi Arabia 2025

What does BYD energy storage mean for Saudi Arabia?

BYD Energy Storage and Saudi Electricity Company (SEC) have signed a contract to deliver the world's largest grid-scale energy storage project totalling 12.5GWh. This milestone supports Saudi Arabia's Vision 2030, which targets 50% renewable energy in the national mix by the end of the decade.

Why is SEC reshaping Saudi Arabia's energy landscape?

In response to the pressing global climate challenges, SEC has been steadfast in its commitment to reshaping Saudi Arabia's energy landscape and spearheading exploration in renewable energy, driven by the Kingdom's ambition to achieve its optimal energy mix of 50% of renewables by 2030.

Why is energy storage important in Saudi Arabia?

Energy storage is a vital component of this transition, providing grid flexibility and enabling the integration of intermittent power sources such as solar and wind. The project is among several large-scale battery storage initiatives being developed in Saudi Arabia.

How many projects has Bess delivered?

Since then, it has delivered more than 75GWh of BESS equipment to 350 projects in more than 110 countries and regions, catering to various application scenarios across the generation, utility and consumption sides. This landmark project is expected to redefine the role of electrochemical energy storage solutions in the global energy landscape.

Saudi Arabia unveiled a comprehensive roadmap for its energy sector in 2025, emphasising resource maximisation, renewable energy projects, and workforce development, ...

BYD Energy Storage has officially signed contracts with Saudi Electricity Company (SEC) to deliver 12.5 GWh in five BESS projects, marking the world's largest grid-scale storage deployment to ...

Saudi Arabia is making history with the world's largest grid-scale battery energy storage project. BYD Energy Storage has signed a 12.5 GWh contract with the Saudi Electricity Company (SEC), bringing their total ...

Other recommendations include creating incentives to attract private sector investments, and endorsing utility-scale ESS within green financing frameworks (see report, ...

Standalone Energy Storage Systems (ESS) are rapidly emerging as a key market, with 6.1 gigawatts of tenders issued in the first quarter of 2025 alone, accounting for 64% of the total utility-scale energy storage ...

BYD Energy Storage has signed contracts with the Saudi Electricity Company to deliver 12.5 gigawatt hours

(GWh) of BESS equipment for the five energy storage projects - ...

Researchers at King Abdulaziz University have conducted a techno-economic analysis for utility-scale wind and solar plants in Saudi Arabia and have found that current tariffs make projects ...

In January 2025, BYD successfully secured the world's largest energy storage order to date, with a scale of 2.5GW/12.5GWh. The project is distributed across five key locations in Saudi Arabia: ...

Saudi Arabia is making global headlines with its bold transformation plans. In 2025, the Kingdom will see a surge of new mega projects in Saudi Arabia, reshaping its economy, cities, and ...

In addition to public-private partnerships such as through SPPC, Saudi Arabia will host gigawatt-hour scale battery storage facilities to integrate renewable energy at major infrastructure projects such as the Red Sea Project ...

BYD Energy Storage has signed contracts with the Saudi Electricity Company to deliver 12.5 gigawatt hours (GWh) of BESS equipment for the five energy storage projects - the largest grid-scale deployment in the ...

Saudi Arabia is set to witness another leap forward in its ambitious Vision 2030 initiative with the announcement of over 25 new projects this month. Nearly half of these ...

The project is among several large-scale battery storage initiatives being developed in Saudi Arabia. In an ongoing procurement, the Saudi Power Procurement Company (SPPC) is tendering four 500 MW / 2,000 MWh ...

On that matter, the Chinese tech giant announced this week that it had "signed the world's largest grid-scale energy storage projects contracts" with the Saudi Electricity ...

The giga-projects are designed to stimulate the economy and their benefits are expected to expand significantly beyond the real estate and infrastructure sectors, helping to diversify the economy away from oil, especially given their sheer scale.

More than \$600m for four US utility-scale batteries Recurrent Energy, Jupiter Power and Peregrine Energy Solutions have secured finance for a cumulative 550 MW of utility ...
