

Wholesale hybrid solar inverter price list in New Zealand

What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

Who are NZ solar installers?

Trusted by NZ installers. We supply premium solar panels, inverters, batteries, cables, and mounting systems -- all in stock locally for fast delivery. Our global brand partnerships mean proven performance and reliability. Expect sharp pricing, responsive service, and tech you can trust -- so your installs are faster, easier, and more profitable.

Why should you buy a solar inverter in NZ in June 2025?

June 2025 marks a turning point for solar in NZ, with new builds, rural financing, and ICP growth pointing to structural change across residential, industrial, and utility sectors. Source high-performance hybrid, residential & commercial solar inverters. Complete technical support, local stock, and comprehensive warranties for your installations.

What are the different types of solar inverters?

Three-phase: developed for higher yield and more suitable for commercial environments. Hybrid inverters: have the option to draw power from the grid or your energy storage system. Hybrid inverters are great during power blackouts. [Get a FREE Solar Quote](#) [Learn more about Trade Depot Solar](#)
